Reporting Tips for Tableau

Revert Button - If at any time you wish to return to the original delivered view of a dashboard, simply click on "**Revert**" at the bottom left of the dashboard.

ightarrow Redo in the Revert in the Refresh

Date Slider Bar - There are three ways to adjust the date slider bar on a Tableau dashboard.

1. Adjust the slider bar.

2. Click on the date and use the calendar to select a date.

DISC	:na	rge	2 Di	ate		_ <u>L</u>
7/1/	202	1	09/	/30/	2021	L (
<		Ju	ly 20	21		>
S	м	т	w	т	F	s
27	28	29	30	1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31
	Tod	ay: 1	10/2	27/2	021	

3. Type in the date.

Diabetes Clinical Pathway

Your Source for Analytics News & Tips

For the inaugural issue of *Analytics Monthly* we would like to feature the **Diabetes Clinical Pathway** since November is Diabetes Awareness Month. This pathway is available under the care pathways tile on the Analytics Portal. This pathway has multiple reports that consolidate many different metrics into one pathway.

The pathway tracks all patients on the Diabetes registry who had a completed encounter in the past three years. There are multiple tabs that displays visualizations for Practice/Provider metrics, HgA1C, Order Set Usage, Demographics, Prediabetes Patients, At Risk Patient Screening, and Patient Details. There are various filters available to filter on the data that you are looking for such as Medications and Comorbidities.

	PCP			Primar	y Payor		Primary Plan	
•	(AII)		•	(AII)		•	(AII)	•
je			н	as Insul	in Pump On Active	Problem List?	Patient w/ PCP > 12 months?

Reporting Tips for Webi

Page Over – Some Webi reports have multiple pages and you have to page over to view the next page of data. The "Page Over" button is in the lower right had corner of your screen. 1+ indicates that this report has more than one page.

Refresh - Always check when the report was last refreshed. By looking in the lower right-hand corner you can view the instance of the last refresh.

🔊 🕄 160 days ago

The next Webi WebEx class is scheduled for:

December 16, 2021 10:00-12:00pm. How do I sign up?

The Learning Curve (TLC), search "Webi1." Click "Register" and then choose the date.

For any questions reach out to Annamaria.kennedy@lvhn.org

EPIC Upgrade Reporting Highlight

On Nov. 7 the quarterly Epic Upgrade was completed. With this upgrade there is a new option for column widths in report workbench settings.

The next time you make changes to a report in Report Settings, you might notice the following changes to the way you configure column widths:

- The **Width** field is now tucked within a collapsible section that appears when you select a column.
- To better understand the status of columns in the report, new lcons appear in the selected columns section. You can see at a glance when a column is hidden in the report of when it has an invalid width, like if the width is blank.

Lehigh Valley Health Network

Coming Soon: Analytics Monthly will feature the following in the December issue:

- The Readmission Tableau Dashboard
- More Analytics Tips
- Scheduling a Webi report

Analytics Monthly would look great on your visibility wall or in a common staff area.

Print it, post it and encourage your colleagues
