HOSPITAL DONATION DAY.

To-morrow will be Donation Day in the public schools of the city, when the pupils are expected to bring donations for the Allentown Hospital. Last year the contributions were many and liberal, and there is every reason to believe that this year they will be still greater.

The Allentown Hospital has proven a blessing to the community. The good which it has done is not to be measured. The "Morning Call" has always taken a pardonable pride in the part which this paper performed toward the erection of the hospital. It was the "Morning Call" that resurrected the movement for the founding of such an institution after the project had been abandoned in disgust by those who had labored earnestly in its behalf, and it was the "Morning Call" that raised the fund which formed the nucleus for the final fund. Day after day this paper continued to agitate the subject in the face not only of indifference but outspoken opposition on the part of some people. Finally, however, our efforts were rewarded by success.

As stated before, the hospital has done a noble work, but it stands in need of all the assistance which can be given. The Thanksgiving season is a peculiarly appropriate one to make donations to a charitable institution, and the contributions through the pupils of the public schools should be liberal.

Remember the hospital and the noble work which it is doing.
