# PARKING STICKER REMINDER

IF YOU ARE ONE OF THE HOSPITAL EMPLOYEES who has not yet picked up a parking sticker for your car, please remember to do so as soon as possible. Though we are past the snow season, there are still many rainy mornings when lights are left on in the lot and a sticker helps to identify your car quickly.

Stickers are provided for every car an employee drives to work and should be placed on the front windshield directly behind the rearview mirror. In order to obtain your parking sticker, bring your 1977 registration card or cards to the Engineering Department.
